- provide food support to 1552 PLHIV
- Trained and equipped 28 out reach workers in 13 hospitals of Tigray
Region for the smooth delivery of ART adherence.

Challenges

The association has no its own office
No vehicle to supervise project as intended through out Tigray
The staff salary is not secured as a program meaning it is dependent from
The global fund year base agreement.

The way for words

Sustainability of association should addressed through research based strategic
directions
The support of NGO s should maintain to reach the of objectives.
